

SureMDM®

Secure. Monitor. Manage.

Supported Platforms

SureMDM by 42Gears is an intuitive and powerful Unified Endpoint Management (UEM) solution for Android, iOS/iPadOS, Windows, Linux, macOS, ChromeOS, Apple TV, Wear OS, VR, and IoT platforms. Deploy, manage, and secure mobile devices and the content they store, keep corporate data safe, and remotely monitor and troubleshoot any device from an easy-to-use central console.

Key Features:

Express Enrollment

Enroll and set up devices in SureMDM quickly and easily via multiple enrollment methods.

Centralized Management

Effectively manage all your devices and get device-related information you need to make informed decisions with SureMDM centralized console.

Robust Remote Management

SureMDM offers comprehensive remote support features such as remote screen view, remote control, and remote file access, and more for troubleshooting and device maintenance. It also supports out-of-band management for Intel vPro® devices via Intel AMT, enabling remote power on, wake up, reboot, and full KVM (Keyboard, Video, and Mouse) control.

Android Enterprise and Apple Business Manager Support

Set up, configure, and deploy corporate-owned Android and Apple devices right out of the box.

Flexible Mobility Strategy

SureMDM supports multiple mobility strategies like COD, BYOD, CYOD, and WPCO to enable the modern-day workforce by combining flexibility with IT control.

Secure and Manage BYOD Devices

Separate corporate apps from personal-use apps, enforce rigorous password policies, and push content, applications, and identity certificates over-the-air on BYOD devices.

Monitor and Reinforce Responsible Device Behavior

Automatically activate policies based on time, location, or a device's current Wi-Fi network. Remotely lock, reboot, or wipe devices that are stolen or that violate configured settings ensure fine-grained device control.

Remote Support and Troubleshooting

Skip in-person device troubleshooting by remotely accessing devices, now enhanced with screen recording capabilities.

Advanced Analytics and Data Visualization

Get a graphical view of device details, status, alerts, and notifications. Monitor non-compliant devices and visualize data by customizing reports as per requirements.

Alerts and Notifications

Use the built-in messaging application to broadcast alerts and messages from the SureMDM console.

Mobile Application Management

Bulk-purchase and distribute apps from the central console directly to enrolled devices with Apple Business Manager, Microsoft Store, Google Play Store, and SureMDM App Store.

Mobile Email Management and Microsoft 365 Support

Define and enforce security compliance policies and secure Microsoft 365 apps and corporate emails.

Linux Device Management

Simplify the entire Linux device lifecycle management process with capabilities such as Linux Kiosk Mode, Remote Support, Compliance Jobs, and Content Distribution.

Wearable Support Management

Monitor, restrict, and support Apple Watches and Wear OS devices.

ChromeOS Device Management

Seamlessly manage ChromeOS devices with capabilities such as Apps and Extension management, Application and Web Kiosk Management, and Security Management.

Things Management

Harness 42Gears Things Management Technology to monitor and manage peripheral devices like printers, batteries, cradles, and Internet of Things (IoT) devices from the SureMDM console.

VR Device Management

Secure VR devices in kiosk mode, enable silent app installation, troubleshoot remotely with screen sharing, and transfer files remotely.

Mobile Threat Defense

Use MTD to protect your Android and iOS devices from various app-based threats. Configure and push Microsoft Defender Antivirus policies on enrolled Windows devices.

SureMDM ZTNA Upcoming

Provide Zero Trust Network Access to corporate resources from your managed endpoints.

SureMDM InLocate Beta

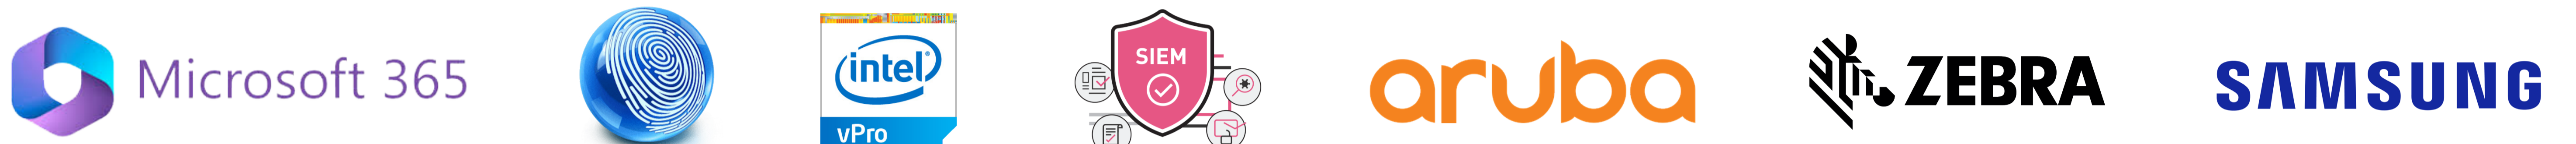

Precisely track and locate enrolled devices in real-time within your facility.

Why choose SureMDM?

- ▶ **Industry-Leading Expertise:** SureMDM is an Android Enterprise Recommended Enterprise Mobility Management solution and a Gold partner in the Android Enterprise Partner Program.
- ▶ **Single Pane of Glass Solution:** Secure, monitor, and manage multiple endpoints from a centralized console.
- ▶ **Reduced IT Burden:** Save IT time and effort with remote configuration, policy deployment, and app installation.
- ▶ **Adherence to Compliance:** Effortlessly enforce device security policies and data protection standards.
- ▶ **Technical Superiority:** With over 15 years in the UEM industry, we have seamlessly supported more than 5 million device deployments across 115+ countries.

- ▶ **Agility and Scalability:** SureMDM ensures unlimited scalability and business agility. We offer a common agent for SaaS and On-premise.
- ▶ **Bespoke Product Customization:** Quick turnaround on feature and customization requests.
- ▶ **Customer Satisfaction:** Consistent CSAT score of over 95% reflects commitment to unparalleled customer experience.
- ▶ **High-touch White-glove Technical Support:** Experience real-time technical support 24x7 to ensure uninterrupted IT operations.
- ▶ **Value for Money:** Realize a 25X ROI and spend 60% time savings by managing your device ecosystem with SureMDM.
